Bill,

I will overnight the background documents to you on Monday, and we'll check those dates on our end.

By the way, on Monday you mentioned the sampling data from the Givaudan containment cell collected for the NJ litigation. We checked and as far as we can tell, we received a copy from Tierra Solutions, Inc. but not from Givaudan. I may have overlooked something, but assuming this is correct, could you provide a copy of the complete data set? The PDF version we received (Bates # GIV_NBC-0319521 to GIV_NB_0319623) is not all that clear, and in any case, we would like to be sure we have everything.

Thanks.

-Sarah

Sarah:

Sorry that I was unable to get you possible meeting dates yesterday, as I was tied up on other matters.

Assuming that EPA provides the background documents requested on the QAPP before the holiday break, Givaudan is available on the following dates for a meeting with EPA in January 2014:

January 7 (afternoon)

January 15 (afternoon)

January 16 (afternoon)

Please let us know which date works best to you and your team.

Have a good weekend.

Regards,

Bill

Sarah:

Thank you for responding to Givaudan's request. It is important to my client to review those materials before our meeting so we should reschedule it for January. I will send you potential dates for a meeting in January later today.

Regards,

Bill

Bill,

I am still working on getting the QAPP background documents to you, as well as the revised QAPP. I think it will take a few more days. If it is important to your client that you have time to review the documents before we meet, I suggest that we look for meeting dates in early January.

Regards,

-Sarah
